Corona Virus The worlds advanced technology is helpless

I will be servant of him who loves GOD

London, 06.04.2020, 18:58 Time

USPA NEWS - Corona Virus The world's advanced technology is helpless.

Said : A HAQ

It is generally known that Corona does not have an eye, because where she has put the poor in trouble, it has become a boon for the rich. So rich or poor he has nothing to do with it. Because it has moved from animal to human. So it is only then that the rich and the poor are discriminated against.

Because animals have no inventions for the rich and the poor. All of this is mankind's own term. So wherever Corona traveled to the poorer countries, he was deeply impressed by the worldly powers, and even today the same worldly powers who were ever proud of their technology and science and admitted to show only the power of God today. He is seeking mercy from God, because He is the Creator of the entire universe. And this particle that does not even appear as if in fear of germs, he is demonstrating his sanctity and showing the human race its times and explaining how much science has developed or technology. Why not be modern? He can still disrupt this system by fearing the smallest of things, and of course he has the power to do so in the fear of which the poor and the rich are suffering more.

Why imposed? So the answer is simple that all mankind, no matter what religion they belong to, were all turned away from Allah. So it has given him the slightest shock that perhaps my servant should repent and draw near to me, so this difficult time may be considered as a sign of his correctness by God, as we were talking about how rich and poor came to him. There are.

But the journey of the poor is more difficult than that of the rich because the poor who worked hard day and night to feed their children two loaves of bread are now deprived of that bread, because the country where Corona has gone has also used the system. As it has been frozen and it has impacted everything on the economy, industry, sports and everyday and has punctured the wheels of development, but the virus does not stop here but also the loss of human lives. The first type of reason that governments have to go to Lockdown is because they have the power to spread the virus so human beings have to travel far and wide. Encouraging people to stay in homes is being encouraged, but as Pakistan, which is not an economically rich country and where money is inherited by few families, there are tragic scenes in this situation because of working class industries. Due to the closure, the house is sitting and struggling for one-time bread.

There is also an incident in the eyes of Khaksar, which is related to a white woman who has been feeding her children peppers for several days. There are instances of such incidents that are unfamiliar to us. In this regard, the government is also trying to support the poor as much as it is possible, but the population of the five crore population in Pakistan is below the poverty line which is very large, so the total supply of rations to the government bus. It is not a matter, but in this situation, the donors are also helping the government and providing food to more people. Annie are made, but it may still be low because the hands are taking more and giving less space when I meet it.

When all the gentlemen should shoulder the poor together because we have all been given shoulder to shoulder, but the living are still waiting for our shoulder, so in this regard we all need to shoulder together so that this strong and mighty humanity. To get support. In this connection, a group of few people in Bahawalnagar called Kandha have come forward to serve the humanity suffering from hunger and poverty. And to serve without humiliating any human being is a reflection of their passion. Therefore, hundreds of such organizations are advocating for the suffering of the suffering humanity, which includes Edhi, service people, Bahrain Town and others. Therefore, where Corona has challenged the poor, he has also given the opportunity to serve the charitable gentlemen and to expose the so-called public representatives who come one day before the election and get votes. When the people of the KK constituency are in trouble, they do not even appear and these so called public representatives spend billions of rupees in preparation for the elections.

But in these situations, they do not even balk their investment. All such roles are condemnable. So if we all should shoulder each other,

one of the benefits would be that we will also get rid of the fear of Corona because Fear can be cured in such a way that the fear of God comes in man. It relieves fear, every fear. If man entrusts himself to Allah, every fear is eliminated. Therefore, if we should shoulder the poor with the intention of purity, then we can become the special servants of Allah and the special servants of Allah do not fear. The poet, too, has very well portrayed the special servants of Allah;
The lovers of God are in the thousands, fluttering in the buns
I will be the servant of him who loves God's servants.
May Allah swt protect us all, our loved ones, the children and parents in the world in these difficult times; Ameen.
